SKILLS

- Java (Core, 8+, Collections)
- Spring(Core, Boot, Data, Web, Security, MVC, Cloud, Eureka)
- Hibernate, JPA, JDBC
- SQL(MySQL, PostgreSQL, FlyWay)
- MongoDB, Minlo storage
- Maven/Gradle
- Docker, GitHub/GitLab
- Thymeleaf, Lombok
- JUnit, Mockito, Testcontainers
- Event-Driven architecture
- Microservices, Spring Events
- ELK stack (Kibana, Logstash, ElasticSearch)
- Postman, JSON, Swagger
- Selenium WebDriver, JMeter
- AWS(Elastic Beanstalk, S3)
- GitHub Actions, CI/CD
- Karate UI-tests
- OOP, SOLID

LANGUAGES

- English - Upper-intermediate
- Polish - Pre-Intermediate
- Ukrainian - native
- Russian - native

PROFILE

Java Developer with hands-on experience in backend development, QA automation, and event-driven architectures. Skilled in improving system functionality, optimizing processes, and enhancing software reliability.

Worked on project for a charitable organization supporting IT startups. Actively engaged in personal projects, exploring new tools, and participating in hackathons.

EXPERIENCE

NGO "Treasure house of projects"

Java Developer | October 2024 - Present

A platform designed to connect non-profit organizations with potential partners. The portal aims to address the challenges faced by non-profits and IT startups, helping them secure funding to support their initiatives.

Key responsibilities

- Fixing localization bugs to ensure accurate translations
- Refactoring and improving the maintainability of Karate UI tests
- Writing integration tests to validate event-related functionality
- Optimized logging configuration to suppress redundant security logs while maintaining essential debugging information.
- Implementing custom logic in the rewards service to ensure badges are correctly assigned to volunteers based on their contributions
- Setting up, configuring, and restoring MinIO storage for efficient data management and reliability.

ACHIVEMENTS

INT20H 2024 hackaton Certificate

In 03.03.2024 our team took first place in Mobile Development section in hackaton orgenezed by Best Kyiv

EDUCATION

Kyiv Politechnical University

Bachelor in Software engineering
September 2022 - Present

Foxminded courses

Java Spring Mentoring
February 2024 - September 2024
